Industry Developments

Throughout 2010, the very popular Service Station Association (SSA) Road Shows are returning across the state.

SSA will be running the 11 road shows throughout NSW from MAY through to NOVEMBER.

The Road Shows will be open to both SSA members, MTA members and non-members, any interested parties, and will include presentations on industry issues along with SSA Business Partners. The content of the Road Shows alone make it a must attend for the service station industry or if you are involved in bulk fuel handling/dispening/ supply/consulting.

The 2010/11 year will continue to see a lot of complex legislation and regulation changes, and we plan to dissect these issues and explain what is required to comply.

PROGRAM

As a result of attending these Road Shows, you will:

- ◆ gain vital information about regulations impacting on service station operation:
 - UPSS (Underground Petroleum Storage Systems)
 - VR2 (Vapour Recovery 2)
 - E10 mandate
- ◆ hear from Gilbarco on VR2 preparedness and inovative equipment solutions
- ◆ SSA new & exciting Business Pack Insurance
- ◆ hear from MTAA Superannuation Fund
- ◆ be updated on Oilcode, Trade Practices, ACCC and industry issues from SSA & staff and hear about great new offers from SSA business partners including electricity and solar power!

All Shows 1.30pm for 2pm start.
Tea/coffee/biscuits provided.

SSA Members are offered FREE admittance, but you will need to register your attendance.
